Élite Kitchen

Forma, materia e sensi: il nuovo paradigma dello stile disegnato da Elleci

Élite Kitchen ridefinisce l'ambiente cucina con soluzioni uomo-spazio innovative e affascinanti e ispira le tendenze della progettazione d'interni. Materiali esclusivi, design intelligente e ricerca estetica si combinano in un processo di nobilitazione del prodotto, che pervade ogni dettaglio.

Protagonista della linea premium il Keratek: la materia sublima l'esperienza visiva e tattile; la bellezza dei lavelli in composito si declina in una tavola cromatica intensa, che diviene ancor più preziosa nel "mix & match" con superfici e finiture, secondo i desideri di ognuno.

Accessori evoluti e la potenza dell'ergonomia elevano l'area lavaggio a originale concetto di workstation per raggiungere la massima espressione in Mixology. Tecnologia e family feeling plasmano le collezioni di miscelatori dalla personalità ricercata e di elettrodomestici matt black, inaugurando un set performante dove mettere in scena ogni giorno passione e creatività.

Élite Kitchen è la nuova promessa del lusso domestico, che celebra lo stile individuale e il piacere della convivialità.

Shape, materials and senses: the new style formula designed by Elleci

Élite Kitchen revamps the kitchen environment with innovative and attractive people-space solutions, inspiring trends in interior design. Exclusive materials, smart design and elegance are combined in a process of enhancing the product that is imbued in every detail.

Keratek is the star of the premium range: the material is visually attractive and a joy to touch; the beauty of composite sinks is showcased in an intense colour palette enhanced by “mix & match” options of surfaces and finishes, ensuring a personalised result.

State-of-the-art accessories and the power of ergonomics transform the washing area into an innovative workstation concept, showcasing the concept of Mixology. Technology and a family feeling shape the collections of elegant mixer taps and matt black appliances, creating a high-performance setting in which passion and creativity take centrality in the everyday stage.

Élite Kitchen is the new promise of domestic luxury, celebrating individual style and the pleasure of spending time with friends and family.

Fascino supremo

Il Keratek si distingue per l'anima strutturale piena, densa e vivida e la superficie estremamente liscia che rivela la fusione di materia e colore in sei nuance di tendenza: Black, Dark Grey, White, Clay, Sage e Cocoa.

Supreme charm

The hallmark feature of Keratek is its solid, dense, vivid composition and ultra-smooth surface that reveals the fusion of material and colour in six trendy shades: Black, Dark Grey, White, Clay, Sage and Cocoa.

Installations

Integra

Il particolare bordo di Integra, rettificato a raggio zero, consente la perfetta giunzione con il piano di lavoro appositamente preparato per l'integrazione, creando una vera e propria fusione tra i due materiali.

Essenza

La soluzione monolitica per vasche realizzate nello stesso materiale del piano di lavoro. Essenza è il fondo vasca con angoli interni raggiati, progettato per garantire una migliore praticità di pulizia e una performance di eccellenza nell'area più stressata di utilizzo.

The monolithic solution for sinks made of the same material as the work top. Essenza is the sink bottom with rounded inner corners, designed to guarantee an improved cleaning easiness as well as excellent performance in the most stressed area of use.

3 sistemi, una scelta di valore

Le collezioni di lavelli Mixology, Dialogo, Sintesi e Zen possono essere configurate in diversi sistemi di installazione a seconda del proprio gusto estetico e funzionale. Ogni tipo di prodotto dispone delle sue varianti, ciascuna di esse differisce per caratteristiche tecniche e di lavorazione del piano, ma tutte sono accomunate da un valore di design unico e inconfondibile.

3 systems, one value choice

Mixology, Dialogo, Sintesi and Zen sink collections can be configured in different installation systems depending on your aesthetic and functional taste. All the products come with their own variations, each of which has different technical features and worktop installations, but all sharing a unique and unmistakable design value.

Il bordo dal design ultrasottile favorisce la duplice possibilità di installazione per integrarsi con tutti gli elementi; l'originale reinterpretazione dell'area tecnica permette di ospitare miscelatore, comandi remoti e piccoli complementi come il dosa sapone; sui rail interni poggiano e scorrono gli accessori multifunzione.

The ultra-slim edge is perfect for dual installation options to integrate with all the elements; the original reinterpretation of the technical area makes space for the mixer tap, remote controls and small accessories such as the soap dispenser; multi-purpose accessories rest and slide on the internal rails.

elleci pure

Il sistema di purificazione dell'acqua multistadio **all-in-one** e pronto all'uso

Il processo di filtrazione combina azioni diverse, riuscendo ad abbattere le sostanze nocive presenti nel sistema idrico e a migliorare il gusto dell'acqua come mai prima d'ora. Dimensioni compatte, organizzazione e sensibilità estetica delineano i tratti distintivi dell'**Elleci Pure Case**. Due programmi evoluti, **Micro-filtrazione e Ultra-filtrazione**, offrono la soluzione più performante in base alla struttura dell'acqua in ingresso*. La famiglia di **Miscelatori Elleci Pure** aggiunge alla funzionalità filtrante il piacere di un design ricercato.

** Il sistema di purficazione è efficace esclusivamente con acqua potabile. Per scegliere il programma di filtrazione più adatto alle proprie esigenze, si consiglia di effettuare analisi dell'acqua in ingresso.*

ACQUA PURA
Niente batteri, virus, metalli pesanti, microplastiche e residui tossici

GUSTO PIACEVOLE
Eliminazione delle sostanze che alterano odore e sapore dell'acqua

RISPETTO DELL'AMBIENTE
Sensibile riduzione del consumo di plastica e delle emissioni di CO_2

COMODITÀ
Fine dell'impegno per acquisto, trasporto e stoccaggio delle bottiglie

AUTONOMIA
Sistema pronto all'uso e di facile manutenzione per ricambio filtri

ESTETICA
Design curato, installazione discreta, abbinamento con miscelatori Élite Kitchen

The ready-to-use, multi-stage, **all-in-one** water purification system

Compact sizes, organisation and visual appeal are the hallmark features of **Elleci Pure Case** that houses all the functional components. Two advanced **Micro-filtration and Ultra-filtration** programmes deliver the best solution depending on the structure of the mains water*. The family of **Elleci Pure taps** adds visual appeal of a sophisticated design to the choice between mixed and filtered water.

** The purification system only works with drinking water. In order to choose the most suitable filtration programme for your needs, we recommend carrying out an analysis of your mains water.*

PURE WATER
Say goodbye to bacteria, heavy metals, micro-plastics and harmful residue

PLEASANT TASTE
Elimination of the substances that change the smell and taste of water

ENVIRONMENTALLY FRIENDLY
Noticeable reduction in the consumption of plastic and CO_2 emissions

CONVENIENT
No more buying, transporting and storing bottles

AUTONOMY
Ready-to-use system with easy filter change maintenance

VISUAL APPEAL
Elegant design, discrete installation, paired with Élite Kitchen taps

Sipario

La ricerca materica della collezione Sipario spinge lo stile oltre i confini conosciuti.

La vetroceramica nobilita il design minimalista dei piani cottura a induzione con l'esclusiva superficie ultra opaca; delicato il contrasto con l'area comandi touch-sliding illuminata da led bianchi. La profondità del nero dà carattere e innalza l'impatto estetico dei piani cottura a gas.

The research into materials of Sipario collection pushes style beyond familiar boundaries.

Ultra-matt glass ceramic elevates the minimalist design of induction hobs, creating an harmonious contrast with the white led touch-sliding control area. The depth of black adds character and underscores the aesthetic impact of the gas hobs.

Cura e manutenzione
Care and maintenance

Un set di prodotti con specifiche caratteristiche, realizzati per facilitare la pulizia e mantenere nel tempo la bellezza dei prodotti Elleci.

Mantenere nel tempo l'estetica e la funzionalità del prodotto è estremamente semplice.

È sufficiente pulire ed asciugare quotidianamente utilizzando detergenti neutri o specifici della linea Elleci Beauty senza lasciare che depositi e residui agiscano a lungo sulle superfici.

A series of products with specific features, designed to facilitate cleaning and maintain the beauty of Elleci products over time.

Maintaining the aesthetics and functionality of the bowl over time is extremely simple.

Just clean the bowl daily with water, dish detergent or Ellecy Beauty specific product and a soft cloth, without letting deposits and residues act for a long time on the surfaces.

Rimuovere eventuali macchie utilizzando una spugna morbida e un detergente neutro per i piatti o un prodotto specifico della linea Elleci Beauty.

Remove any stains using a soft cloth or sponge with normal dish detergent or a specific Elleci Beauty product.

Risciacquare abbondantemente le superfici utilizzando acqua tiepida.

Rinse the surfaces thoroughly with warm water.

Asciugare con cura la superficie con un panno morbido o in microfibra per impedire la formazione di depositi di calcare.

Dry the wet areas thoroughly with a microfibre cloth to prevent the formation of limescale deposits.

Per prevenire la formazione delle macchie di calcare sulla superficie, si raccomanda di eseguire una pulizia più approfondita una o due volte alla settimana utilizzando un detergente anticalcare disincrostante come lo spray anticalcare Daily Clean della linea Elleci Beauty.

To prevent the formation of limestone stains on the bowl, it is also recommended to decalcify the bowl once or twice a week, using a descaling detergent or a specific Elleci Beauty product as Daily Clean anti-limescale spray.

Modalità di assistenza tecnica

LAVELLI | MISCELATORI | ACCESSORI | DISSIPATORI

In caso di assistenza tecnica su lavelli in composito, lavelli inox, miscelatori, accessori e dissipatori, e dopo l'inserimento di dati e documenti necessari, il Customer Care elaborerà la pratica, fornendoti riscontro entro le 48 ore successive.

Se la pratica rientra in garanzia, essa verrà conclusa nell'arco dei 7 giorni successivi alla data dell'invio della mail con la comunicazione dell'esito della pratica stessa.

PIANI COTTURA | FORNI | CAPPE

In caso di segnalazioni riguardanti gli elettrodomestici (piani cottura, forni e cappe), esse verranno gestite tramite circa 350 centri di assistenza tecnica (CAT) da noi appositamente incaricati. Anche in questo caso, dopo aver fornito i necessari dati e documentazioni, il Customer Care Elleci prenderà contatto con te entro le 48h successive alle segnalazione per definire e concordare le successive tempistiche di uscita e/o di risoluzione pratica.

Mode of technical assistance

SINKS | TAPS | ACCESSORIES | FOODWASTE DISPOSERS

In case of technical assistance on composite sinks, stainless steel sinks, mixers, accessories and foodwaste disposers, and after entering the necessary data and documentation, Customer Care will process the case, providing you with feedback within the next 48 hours.
If the case falls under warranty, it will be concluded within 7 days from the date of sending the email notifying the outcome of the case.

HOBS | OVENS | HOODS

In the case of reports concerning home appliances (cooktops, ovens and hoods), they will be handled through approximately 350 technical assistance centers (CAT) specifically appointed by us. Also in this case, after providing the necessary data and documentation, Elleci Customer Care will contact you within 48h after the reports to define and agree on the subsequent timing of outbound and/or practical resolution.
